

The ACM/SIGGRAPH Motion, Interaction and Games (MIG) 2025 is the 18th annual conference for motion and interaction in games. The MIG conference showcases the best multidisciplinary research in motion and interaction. The conference has its roots in the computer graphics and animation community, but with strong participation from the human-computer interaction, virtual reality, computer vision, robotics, and design communities. One of the goals of the conference is to bring together researchers from this variety of fields to share important advancements and cross-fertilize ideas to further the state-of-the-art in real-time computer motion and interaction research.

Sponsoring the conference provides a unique opportunity to connect with participants of the conference for recruiting, learning from the state-of-the-art research being presented, and publicizing new corporate innovations. It also allows your organization to invest in the brightest upcoming young researchers from around the world. We would graciously like to partner with your organization and have you as a sponsor for our upcoming events. As such, we invite you to read through the sponsorship package below which describes the different benefits for each of the available sponsorship tiers. These tiers provide flexibility depending on sponsorship goals, and all tiers demonstrate public support for the impactful research of the community.

Should you have any questions, please contact the following conference organizers:

Robert Sumner, ETH Zurich and Disney Research (sumnerb@inf.ethz.ch)

Fabio Zünd, ETH Zurich Game Technology Center (fzuend@ethz.ch)

We thank you for your consideration.

Kind Regards,

The Conference Organisers, MIG 2025
